#### Background Roles – Classroom Extras

We are seeking two extras to appear in the background of a classroom scene with the lead character, Maen. These roles are non-speaking, but require clear physical actions:

- Student #1: Raises their hand to answer a question during class. Should convey confidence and attentiveness through body language.
- Student #2: Accidentally drops their books and papers while exiting the classroom. Should portray urgency and subtle frustration non-verbally.

Both roles are brief but contribute meaningfully to the atmosphere and emotional tone of the scene.
