

## **Discovering New Talent for Several Film Projects Filming throughout Spring and Summer 2026.**

We are beginning early casting for several short film projects scheduled to film between Spring and Summer 2026. This is a preliminary search to meet talent, see who is out there, and start matching people to roles based on who they naturally are.

**No experience is required.**

We are looking to work with you as you already are. Any reels, clips, or videos you share will help us understand your presence on camera and place you in the project that fits you best. We are not looking to heavily coach or reshape you — we want to cast people whose natural qualities align with the characters.

**We are looking for:**

- **Actors age 18 to 28 (all genders)**
- **Actors age 30 to 45 (all genders)**

If you're interested, please fill out the casting form and submit a clear headshot along with a full body photo.

**Responses can be expected within two weeks of submission time.**
