Our Classes

Your training begins with the powerful 101: Acting for Film and TV, 8-week class.

This class is designed for students needing to hone their acting and Audition Technique. Learn what it means to “do the work” as an actor, breaking down scripts and analyzing the true impact of every story.

Through improv study and scripted work, uncover your potential as an actor!

Advanced Classes

Our training deepens as students progress to the....

201: Acting Through partnership: an 8-week program designed to revolutionize your scene work with partners.

Through unscripted partner work based on the Discovery Technique, created at the Studio by Mr. Weisberg, you will transcend normal acting and discover the power of connection.

Our Motto

Discovery is the fabric of magic, and we storytellers are the magicians.

Portfolio building with On Set Training!

That’s right, in our 301: Short Film Production Lab, students spend 8 weeks learning advanced acting for camera techniques and create a short film starring all the actors in class. Build your portfolio, and see your movies on the big screen, meeting pros at film festivals from coast to coast.

401: ParaD TV

Once ready, Actors can now join our advanced TV production Lab, ParaD TV, where we create segments of parody TV content to be produced for a new platform, StorieTV, and our own Youtube channel to showcase our actors. Create your working portfolio with us!
